Applications

Ideal for large homes with multiple rooms and multiple users

Ideal for average Internet users seeking fast downloads, seamless streaming audio, uninterrupted streaming video, and lag-free online gaming

Features

Fast Wi-Fi 6 for an Upgraded Network Experience

Armed with Wi-Fi 6, Halo H70X improves virtually every aspect of your network, especially when it comes to speed, efficiency, and capacity.

1024-QAM
Boosts raw speeds by 25% compared with 256-QAM.

OFDMA
Delivers greater network capacity and efficiency.

MU-MIMO
Connect more devices simultaneously.

BSS Color
Marks frames from neighboring networks to increase efficiency.

// A Whole Home Wi-Fi Solution

Halo works as a unified system to guarantee a strong Wi-Fi signal in every corner of your home. Mercusys Mesh Technology provides an incredibly fast and stable user experience when you walk around your home. Interruption and buffering will be a thing of the past.
Whole Home Coverage
Eliminate weak signal areas with clearer, stronger whole home Wi-Fi.

Seamless Roaming
Choose the best signal and enjoy the best connections.

One Unified Network
Run a single home network with one Wi-Fi name and password.

5 GHz wireless connection
2.4 GHz wireless connection
Internet

Connects over 150 Devices
Halo keeps your phones, computers, and all IoT devices connected simultaneously.

Quality of Service (QoS)
Prioritize select devices to perform better.

Parental Controls
Set access control and time limits to better manage your family's online habits.

Quick Installation Guide

*Seamless roaming requires clients to support 802.11k/v/r and may require additional setup. Performance may vary depending on the client device.
*Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Actual wireless data throughput, wireless coverage, and quantity of connected devices are not guaranteed and will vary as a result of network conditions, client limitations, and environmental factors, including building materials, obstacles, volume and density of traffic, and client location.
*Use of Wi-Fi 6 and other features including OFDMA, MU-MIMO, 1024-QAM, HE160, BSS Color, TWT require clients to also support the corresponding features. The 160 MHz bandwidth may be unavailable in the 5 GHz band in some regions/countries due to regulatory restrictions. This product may not support all the mandatory features of IEEE 802.11AX specifications. Further software upgrades for feature availability may be required.
*Use of WPA3 requires clients to also support WPA3.
*Please note that the Halo H series and S series cannot work together. Halo H70X is compatible with other units from the Halo H series to form a Mesh network.
*All WAN/L AN ports will operate as either WAN or LAN ports. Only one port can serve as a WAN port at a time.
