Quick Installation Guide

AV1000 Gigabit Passthrough Powerline Adapter Kit
Model: PH6

*Applicable to P6 and its kit
This Installation Guide is for installation instruction only. For more product or function details, please visit <http://www.tendacn.com>.

Plug and Play

English:
Connect one adapter to one of the LAN ports of a router for internet access, and plug it into a wall receptacle nearby.

Português:
Conecte um adaptador a uma das portas LAN de um roteador para acesso à Internet, e conecte-o em uma tomada de parede.

Español:
Conecte uno de los adaptadores a uno de los puertos LAN del router para acceder a Internet, y enchúfelo a una toma de corriente cercana.

Italiano:
Collegare un adattatore a una delle porte LAN di un router per l'accesso a Internet, quindi inserirlo in una presa a muro nelle vicinanze.

Français:
Connectez un adaptateur à un des ports LAN du routeur pour accès Internet, et branchez-le à une prise murale proche.

Deutsch:
Verbinden Sie zum Zugriff auf das Internet einen Adapter mit einem der LAN-Ports eines router und verbinden Sie diesen mit einer Wandsteckdose in der Nähe.

Polski:
Podłączyć adapter do jednego z gniazd LAN routera, aby uzyskać dostęp do Internetu i włączyć go do pobliskiego gniazdka elektrycznego.

Magyar:
Az internethez való kapcsolódáshoz csatlakoztassa az egyik adaptert a vezetékes hálókábel router egyik LAN portjához, és dugja be egy közeli fali csatlakozóaljzatba.

Русский:
Подключите один адаптер к порту локальной сети(LAN) маршрутизатора для доступа в Интернет, и подключите его к электрической розетке рядом.

Română:
Conectați un adaptor la unul din porturile LAN ale unui router pentru acces la Internet, și conectați-l la o priză de perete din apropiere.

Türkçe:
İnternete erişim için bir adaptörü router'in LAN portlarından birine bağlayın ve yakındaki bir duvar prizine takın.

English:
Connect the other adapter to a wired device such as a set-top box of a TV, and plug it to a wall receptacle.

Português:
Conecte o outro adaptador a um computador ou outros dispositivos com fio, e conecte-o a uma tomada de parede.

Español:
Conecte el otro adaptador a un ordenador u otro dispositivo con cable, y enchúfelo a una toma de corriente.

Italiano:
Collegare l'altro adattatore a un computer o ad altri dispositivi con cavo, e collegarlo a una presa a muro.

Français:
Connectez l'autre adaptateur à un ordinateur ou un autre appareil et branchez-le à une prise murale.

Deutsch:
Verbinden Sie den Adapter mit einem Computer oder anderen, verdrahteten Geräten, und verbinden Sie diesen mit einer Wandsteckdose in der Nähe.

Polski:
Podłączyć drugi adapter do komputera lub innych urządzeń przewodowych i włączyć go do gniazdka elektrycznego.

Magyar:
A másik adaptert csatlakoztassa egy számítógéphez vagy más vezetékes eszközökhöz, és dugja be egy fali csatlakozóaljzatba.

Русский:
Подключите другой адаптер к компьютеру или другим проводным устройствам, и подключите его к сетевой розетке.

Română:
Conectați celălalt adaptor la un computer sau alte dispozitive cu fir, și conectați-l la o priză de perete.

Türkçe:
Diğer adaptörü bir bilgisayara veya başka bir kablolu cihazla bağlayın ve duvar prizine takın.

(Optional) Español:
Proteja sua rede Powerline
1. Enchufe los adaptadores.
2. Pulse el botón **Pair/Reset** (Emparejar/Restablecer) de uno de los adaptadores durante 1 segundo, y el led del PLC **LED** del adaptador empezará a parpadear.
3. A continuación, pulse el botón **Pair/Reset** (Emparejar/Restablecer) en el otro adaptador durante 1 segundo. Ambos botones deben ser presionados en menos de dos minutos.
Observe las luces led de los PLC **LED** en los dos adaptadores hasta que se iluminen de nuevo.

(Opzionale) Italiano:
Mettete in sicurezza il Powerline Network
1. Collegare gli adattatori.
2. Premere il tasto **Pair/Reset** su un adattatore per 1 secondo, e il LED PLC **LED** sull'adattatore inizia a lampeggiare.
3. Quindi premere il **Pair/Reset** (accoppiamento/tauto RESET) sul altro adattatore per 1 secondo.
Entrambi i tasti devono essere premuti entro due minuti.
Osservare i LED PLC **LED** sugli adattatori fino a quando non sono nuovamente accesi.

(Optionnel) Français:
Sécurisez votre réseau Powerline
1. Branchez vos adaptateurs.
2. Appuyez sur la touche **Pair/Reset** (Appairer/Réinitialiser) sur un des adaptateurs pendant une seconde, et le LED PLC **LED** de l'adaptateur commence à clignoter.
3. Puis appuyez sur la touche **Pair/Reset** (Appairer/Réinitialiser) sur l'autre adaptateur pendant 1 seconde. Les deux touches doivent être appuyées dans les deux minutes.
Observez les LEDs PLC **LED** sur les deux adaptateurs jusqu'à ce qu'elles se rallument.

(Optional) Deutsch:
Sichern Ihres Powerline-Netzwerks
1. Schließen Sie Ihre Adapter an.
2. Drücken Sie auf die **Pair/Reset** (Paaren/Zurücksetzen)-Taste an einem Adapter für eine Sekunde. Das SPS-LED **LED** des Adapters beginnt zu blinken.
3. Drücken Sie dann die **Pair/Reset** (Paaren/Zurücksetzen)-Taste am anderen Adapter für eine Sekunde. Beide Tasten müssen innerhalb von zwei Minuten gedrückt werden.
Beobachten Sie die SPS-LEDs **LED** an beiden Adaptern, bis diese erneut leuchten.

(Opcjonalne) Polski:
Zabezpiecz sieć linii energetycznej.
1. Podłączyć adaptery.
2. Naciśnij przycisk **Pair/Reset** (Paruj/Resetuj) na jednym z adapterów na 1 sekundę- dioda PLC **LED** zacznie migać.
3. Naciśnij przycisk **Pair/Reset** (Paruj/Resetuj) na drugim adapterze na 1 sekundę. Oba przyciski muszą być naciśnięte w przeciągu dwóch minut.
Obserwuj diody PLC **LED** na obu adapterach aż zapalą się ponownie.

(Opcionális) Magyar:
Biztosítsa Powerline hálózátát
1. Csatlakoztassa az adaptereket.
2. Nyomja le a **Pair/Reset** gombot az egyik adapteren 1 másodpercig, amíg az adapter PLC LED-je **LED** villogni nem kezd.
3. Ezután nyomja le a **Pair/Reset** gombot a másik adapteren is 1 másodpercig. A két gombot két percen belül kell lenyomni.
Várjon, amíg a két adapter PLC LED-je **LED** újra világitani kezdenek.

(Опционально) Русский:
Защитите свою powerline сеть.
1. Включите адаптеры.
2. Нажмите на кнопку **Pair/Reset** на одном из адаптеров, PLC **LED** индикатор на нем начнет мигать.
3. Затем нажмите на кнопку **Pair/Reset** на другом адаптере. Обе кнопки должны быть нажаты в течение двух минут.
Дождитесь, когда PLC **LED** индикаторы двух адаптеров загорятся.

(Optional) Română:
Securizați rețeaua dvs. Powerline
1. Conectați adaptatoarele dvs.
2. Apăsăți butonul **Pair/Reset** (Asocieri/Resetare) de pe un adaptor timp de 1 secundă, și LED-ul PLC **LED** de pe adaptor începe să clipească.
3. Apoi apăsați butonul **Pair/Reset** (Asociere/Resetare) de pe celălalt adaptor pentru 1 secundă. Ambele butoane trebuie să fie apăsați timp de două minute.
Observați LED-urile PLC **LED** de pe cele două adaptoare până când acestea sunt aprinse din nou.

(Opsiyonel) Türkçe:
Güç Hattı Ağınız Güven Altına Alın
1. Adaptörlerinizi takın.
2. Adaptörlerden birinde **Pair/Reset** (Ekle/Sıfırla) düğmesine 1 saniye basın; adaptörde PLC LED **LED** ışığı yanıp sönmeye başlar.
3. Ardından diğer adaptörde **Pair/Reset** (Ekle/Sıfırla) düğmesine 1 saniye basın. İki düğmeye de iki dakika içinde basılması gerekmektedir.
İki adaptörde PLC LED **LED** ışıklarını tekrar yanana kadar gözlemleyin.

LED & Button

LED	Color	Status	Description
	/	Off	The device is not connected to a power supply.
	Green	Solid on	The device is powered on.
	Green	Slow Blinking	The device is in power saving mode.
	/	Off	The device is not paired with another powerline device, or is powered off.
	Green	Solid on	The device is connected to a powerline network.
	Green	Fast Blinking	The device is pairing with a powerline devices.
	Red	Solid on	The device is in poor condition. Try changing another wall receptacle until the LED indicator turns to green.
	/	Off	No Ethernet cable is detected on the Ethernet port.
	Green	Solid on	An Ethernet cable is connected properly.

Button	Description
Pair/Reset	Hold it down for about 1 second to start pairing. Hold it down for about 6 seconds (the Power LED will be turned off and then turned on again) to restore the adapter to factory settings.

LED	Cores	Status	Descrição
	/	Desligado	O dispositivo NÃO está recebendo energia elétrica.
	Verde	Aceso	A energia elétrica está ligada.
	Verde	Piscas lento	O equipamento está em modo de economia de energia.
	/	Desligado	O equipamento não pode pairar com outro equipamento através da rede elétrica, ou está desligado.
	Verde	Aceso	O equipamento está conectado a outro equipamento powerline.
	Verde	Piscando rápido	O dispositivo está emparelhando com um dispositivo powerline.
	Vermelho	Aceso	O extensor está em más condições; altere-o para outra tomada até que o led fique verde.
	/	Desligado	Não foi detectado cabo de Ethernet na porta Ethernet.
	Verde	Aceso	O cabo de Ethernet está conectado corretamente.

Botão	Descrição
Pair/Reset	Pressione e segure entre 1 segundo para iniciar o processo de pareamento. Mantenha pressionado durante unos 6 segundos (o LED de energia será desligado e acenderá novamente) para restaurar o adaptador para suas configurações de fábrica.

LED	Color	Estado	Descripción
	/	Apagado	El dispositivo NO está recibiendo energía eléctrica.
	Verde	Parpadeo lento	El dispositivo está encendido.
	Verde	Parpadeo rápido	El dispositivo se encuentra en modo de ahorro de energía.
	/	Apagado	El dispositivo no vincula con otros dispositivos powerline, o está apagado.
	Verde	Sólido	El dispositivo está conectado a una red de líneas powerline.
	Verde	Parpadeo rápido	El dispositivo está emparejando con otro dispositivo powerline.
	Rojo	Sólido	El extensor está en malas condiciones; prueba cambiar otra toma de pared hasta que la luz cambie a verde.
	/	Apagado	No se ha detectado ningún cable Ethernet en el puerto Ethernet.
	Verde	Sólido	El cable Ethernet está conectado correctamente.

Botones	Descripción
Pair/Reset	Mantenga pulsado de 1 segundo para iniciar el proceso de vinculación. Manténlo pulsado durante unos 6 segundos (el led de encendido se apagará y luego se volverá a encender) para restaurar el adaptador a los valores de fábrica.

FAQ

Q1: I cannot access the internet after finishing the installation. What should I do?
A1: Try the following methods:
• Verify that your router and the adapters are connected properly.
• Verify that you can access the internet normally by connecting your computer directly to the router or modem.
• Verify that your computer has been set to obtain an IP address automatically.
• Verify that the PLC LEDs **LED** on the adapters are solid green. If they are not, reset all adapters and then observe the PLC LEDs **LED** again.
• Verify that all powerline adapters are on the same electrical circuit.

Q2: I cannot access the internet after finishing the operations in Secure Your Powerline Network, what should I do?
A2: Try the following methods:
• Verify that you can access the internet before using the **Pair/Reset** button to secure your powerline network.
• Verify that the PLC LEDs **LED** on the adapters are solid green. If they are not, reset all adapters and then use the **Pair/Reset** button to pair the adapters again.
• Verify that all powerline adapters are on the same electrical circuit.

Q3: An adapter failed to connect to the powerline network after I moved it to a new location, what should I do?
A3: Try the following methods:
• Verify that all powerline adapters are on the same electrical circuit.
• Verify that the PLC LED **LED** on the adapter is solid green before you move it to a new location.
• Use the **Pair/Reset** button to pair it with another adapter in the powerline network again.

Q4: The PLC LED **LED does not light up. What should I do?**
A4: Try the following methods:
• Verify that all powerline adapters are on the same electrical circuit.
• Refer to Secure Your Powerline Network to pair the powerline adapters.
• Reset all powerline adapters to factory settings by holding down the **Pair/Reset** button for 6 seconds.

Q5: Can a single powerline adapter establish a Powerline network?
A5: No, it cannot. A minimum of two powerline adapters are required.

Q6: Can this Powerline device communicate with other adapters of different manufacturers or types?
A6: Yes. This Tenda powerline adapter kit complies with HomePlug AV/Homeplug AV2 standard and can communicate with other manufacturers' HomePlug AV/Homeplug AV-compliant Powerline devices.

LED	Szin	Állapot	Leírás
	/	Ki	Az eszköz NEM kap elektronos áramot.
	Zöld	Szllárd	Az eszköz elektronos áram alatt van.
	Zöld	Lassú villogás	A készülék energiatákarékos üzemmódban.
	/	Ki	A készülék nem párosította Powerline eszközt, vagy ki van kapcsolva.
	Zöld	Szllárd	A készülék csatlakozik a hálózathoz csatlakoztatja.
	Zöld	Gyors villogás	Folyamatban van az eszköz párosítása a powerline eszközökkel.
	Piros	Szllárd	A extender rossz állapotban van; próbálja megváltoztatni egy másik fali aljzatba, amíg a lámpa zöldre vált.
	/	Ki	Nem észlelhető ethernet kábel az ethernet porton.
	Zöld	Szllárd	Az ethernet kábel megfelelően csatlakoztatva van.

GOMB	Leírás
Pair/Reset	Nyomja meg és tartsa az 1 másodpercig, hogy elindítsa párosítást. Az adapter gyári beállításainak visszaállításához nyomja le és tartsa lenyomva kb. 6 másodpercig (a Power LED kikapcsol, majd újra világitani kezd).

Индикатор	Цвет	Состояние	Значение
	/	Не горит	Устройство не получает электропитание.
	Зеленый	Горит	Электропитание включено.
	Зеленый	Медленно мигает	Устройство находится в режиме энергосбережения.
	/	Не горит	Устройство не сопряжено с другими устройствами powerline или выключено.
	Зеленый	Горит	Устройство подключено к сети powerline.
	Зеленый	Быстро мигает	Устройство сопряжено с другими powerline устройствами.
	Красный	Горит	Увеличить в плохом состоянии; попробуйте включить его в другую розетку/порт, до тех пор пока индикатор не загорится зеленым.
	/	Не горит	Ни один кабель Ethernet не подключен к порту Ethernet.
	Зеленый	Горит	Кабель Ethernet подключен правильно.

Кнопка	Значение
Pair/Reset	Нажмите и удерживайте кнопку нажатой в течение 1 секунду, чтобы начать сопряжение. Нажмите и удерживайте кнопку нажатой примерно 6 секунд(индикатор питания выключится, а затем снова загорится), чтобы вернуть настройки адаптера к заводским значениям.

LED	Culoare	Status	Descriere
	/	Oprit	Dispozitivul NU recepționează curent electric.
	Verde	Aprins	Curentul electric este pornit.
	Verde	Clipire încetă	Dispozitivul este în modul de economisire a energiei.
	/	Oprit	Dispozitivul nu se asociază cu alte dispozitive powerline, sau este oprit.
	Verde	Aprins	Dispozitivul este conectat la o rețea powerline.
	Verde	Clipire rapidă	Dispozitivul se asociază cu un dispozitiv powerline.
	Rosu	Aprins	Amplificatorul nu este funcțional; încercați să schimbați priză și asigurati-vă că lumina sa fie verde.
	/	Oprit	Nu este detectat niciun cablu Ethernet pe portul Ethernet.
	Verde	Aprins	Cablul Ethernet este conectat corect.

Butoane	Descriere
Pair/Reset	Apăsati și mențineți apăsat timp de 1 secundă pentru a porni procesul de asociere. Apăsati și țineți-l apăsat timp de aproximativ 6 secunde (LED-ul Conectare se va opri și apoi se va aprinde din nou), pentru a restabili adaptorul implicit din fabrică.

LED	Renk	Durum	Açıklama
	/	Kapalı	Cihaz elektrik gücü ALAMIYOR.
	Yeşil	Durağan ışık	Elektrik gücü devrede.
	Yeşil	Yavaş Yavaş Sönme	Cihaz, güç tasarrufu modunda.
	/	Kapalı	Cihaz, diğer güç cihazları ile eşleşmiyor veya kapalı.
	Yeşil	Durağan ışık	Cihaz, bir güç ağına bağlı.
	Yeşil	Hızlı Yavaş Sönme	Cihaz bir güç hattı cihazıyla eşleşiyor.
	Kırmızı	Durağan ışık	Uzatıcı kötü bir durumda; ışık yeşile dönmüncey kadar başka priz deneyin.
	/	Kapalı	Ethernet kablosu Ethernet kablosu tespit edilemedi.
	Yeşil	Durağan ışık	Ethernet kablosu düzgünce bağlıdır.

Düğme	Açıklama
Pair/Reset	Eşleştirme işlemi başlatmak için 1 saniye boyunca basılı tutun. Adaptörü fabrika ayarlarına geri yüklemek için 6 saniye boyunca buna basılı tutun (Güç LED ışığı kapanacak ve tekrar açılacaktır).

CE Mark Warning
This is a Class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.
-For PLUGGABLE EQUIPMENT, the socket-outlet shall be installed near the equipment and shall be easily accessible.

NOTE: (1) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. (2) To avoid unnecessary radiation interference, it is recommended to use a shielded RJ45 cable.

FCC Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

Caution!
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: (1) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. (2) To avoid unnecessary radiation interference, it is recommended to use a shielded RJ45 cable.

RECYCLING
This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

Attention

The adapter can only be used in vertical directions.
