DIGITUS® Modular Crimping Tool for Hirose® Plugs

✓ 15 Year Product Warranty

✓ Suitable for Hirose® Plugs

Abstract

DIGITUS® Modular Crimping Tool for Hirose® Plugs TM11, TM21, TM31

Features

- 15 Year System Warranty
- Suitable for Hirose® Plugs TM11 (Category 5e), TM21 (Category 6), TM31 (Category 6A)
- Crimping of the plug is done in one work step (connection, strain-relief and clip)

Product Overview

DIGITUS® Modular Crimping Tool is designed for the crimping of high quality Hirose® connectors. The Crimping Tool can crimp all Hirose® connectors, TM11 (Category 5e), TM21 (Category 6) and also TM31 (Category 6A). The Hirose® connectors are mostly used in combination of high quality patch cables for the Data Center business. In order to satisfy the demand Assmann delivers the crimping tool as well as the assembled cable DK-1643-A-XXX a combination of DRAKA® UC 900 patch cable and Hirose® TM21 or TM31 connector.
