- Руководство пользователя

System requirements

- Устройство Bluetooth / разъем Aux (3,5 мм) / карта Micro SD
- Зарядное устройство или зарядный USB-кабель

WATERPROOF
IPX7

PERFECT FOR
TRAVEL

14 HOURS
PLAYTIME

COMPACT
& RUGGED

Follow the Music

From now on, the party is wherever you are. The Trust Caro Compact is a small Bluetooth speaker that packs quite a punch. It has an IPX7 certification, so it's waterproof, and has a rechargeable battery that will last for up to 14 hours. So take the party with you where ever you go, the Caro Compact will be your travel buddy.

By the Pool

The Caro Compact has a rugged design. It gives this Bluetooth speaker a cool look, but it also means that you don't have to worry about something happening to it. It even has an IPX7 certification, so if you take the party with you to the pool, don't worry about splashing water on it. And with up to 14 hours of battery life on a single charge, you'll be done with your pool party before the music stops.

That Extra Punch

This small speaker knows how to party. The two 45mm driver units that are built-in provide 10W RMS (20W peak) of power and you can even link two Caro Compacts together for that extra punch. Just link your phone via Bluetooth or an AUX cable and become the DJ for the night, or just plug in a micro-SD card filled with mp3's and let the Caro Compact take care of the rest. And when you're done, call your friends with the built-in microphone to start hosting the next party.

GENERAL

Type of speaker	Single unit	Height of main product (in mm)	110 mm
Width of main product (in mm)	90 mm	Depth of main product (in mm)	90 mm
Weight of main unit	380 g
