# Troubleshooting

If you're having problems with the installation, try the following:

- Turn off your modem and Orbi router and disconnect them. Reboot your modem. Reconnect your Orbi router to your modem, and try installing with the Orbi app again.
- If you're still unable to install your Orbi router using the Orbi app, install it manually using the router web interface. Visit [orbilogin.com](http://orbilogin.com) to access the router web interface.

If you already own another Orbi router and you used the Orbi app before, go to the dashboard and tap > **NEW SETUP** to install your new Orbi router.
